

PTI STOCK YARD™

PRODUCT CATALOG

BUILT BY RANCHERS, FOR RANCHERS

WHERE IT ALL STARTED...

PTI Stock Yard was established in the late 2000s when Production Technologies, Inc. (PTI) President, Calvin Sharp, identified a significant need for functional, durable, and affordable stockyard products in the ranching community. The company initially focused on livestock shelters and fencing solutions, quickly becoming a trusted name among modern ranchers. In 2020, PTI expanded its operations, moving to Preston, Idaho, and broadening its product offerings to serve a wider range of agricultural needs.

...WHERE WE'RE HEADED

PTI Stock Yard remains, highly committed to serving the needs of local farmers and ranchers. Constantly searching for new problems to solve and products to produce. Through our system of trusted dealers we are expanding quickly to ensure that we are able to serve as many farmers and ranchers as possible!

BUILT BY RANCHERS,

PTI Stock Yard takes pride in creating high-quality products built by ranchers, for ranchers. We understand the challenges of ranch life because we've lived it ourselves, and that firsthand experience drives everything we do. From durable, field-tested equipment to innovative solutions designed to make daily tasks easier, our products are built to withstand the toughest conditions. We know what works because we've used it ourselves, ensuring that every item we offer meets the real-world demands of hardworking ranchers. When you choose our products, you're not just buying equipment- you're investing in a product designed by those who truly understand your way of life.

FOR RANCHERS.

GRAIN RACK

SKU #HDGR648

Built from premium galvanized tubing, this design saves your back by reducing the heavy lifting and endless shoveling of grain buckets.

Standing 7 feet tall, this unit keeps your tote elevated off the ground and protected from the elements. Engineered for versatility, it accommodates tote bags of any size or weight.

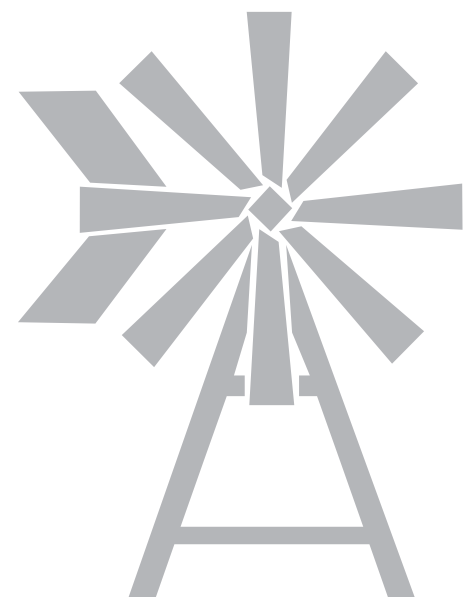

Each grain rack comes with a valve kit that screws right into the bottom of your bag of feed. It is equipped with a valve and tube.

WHY?

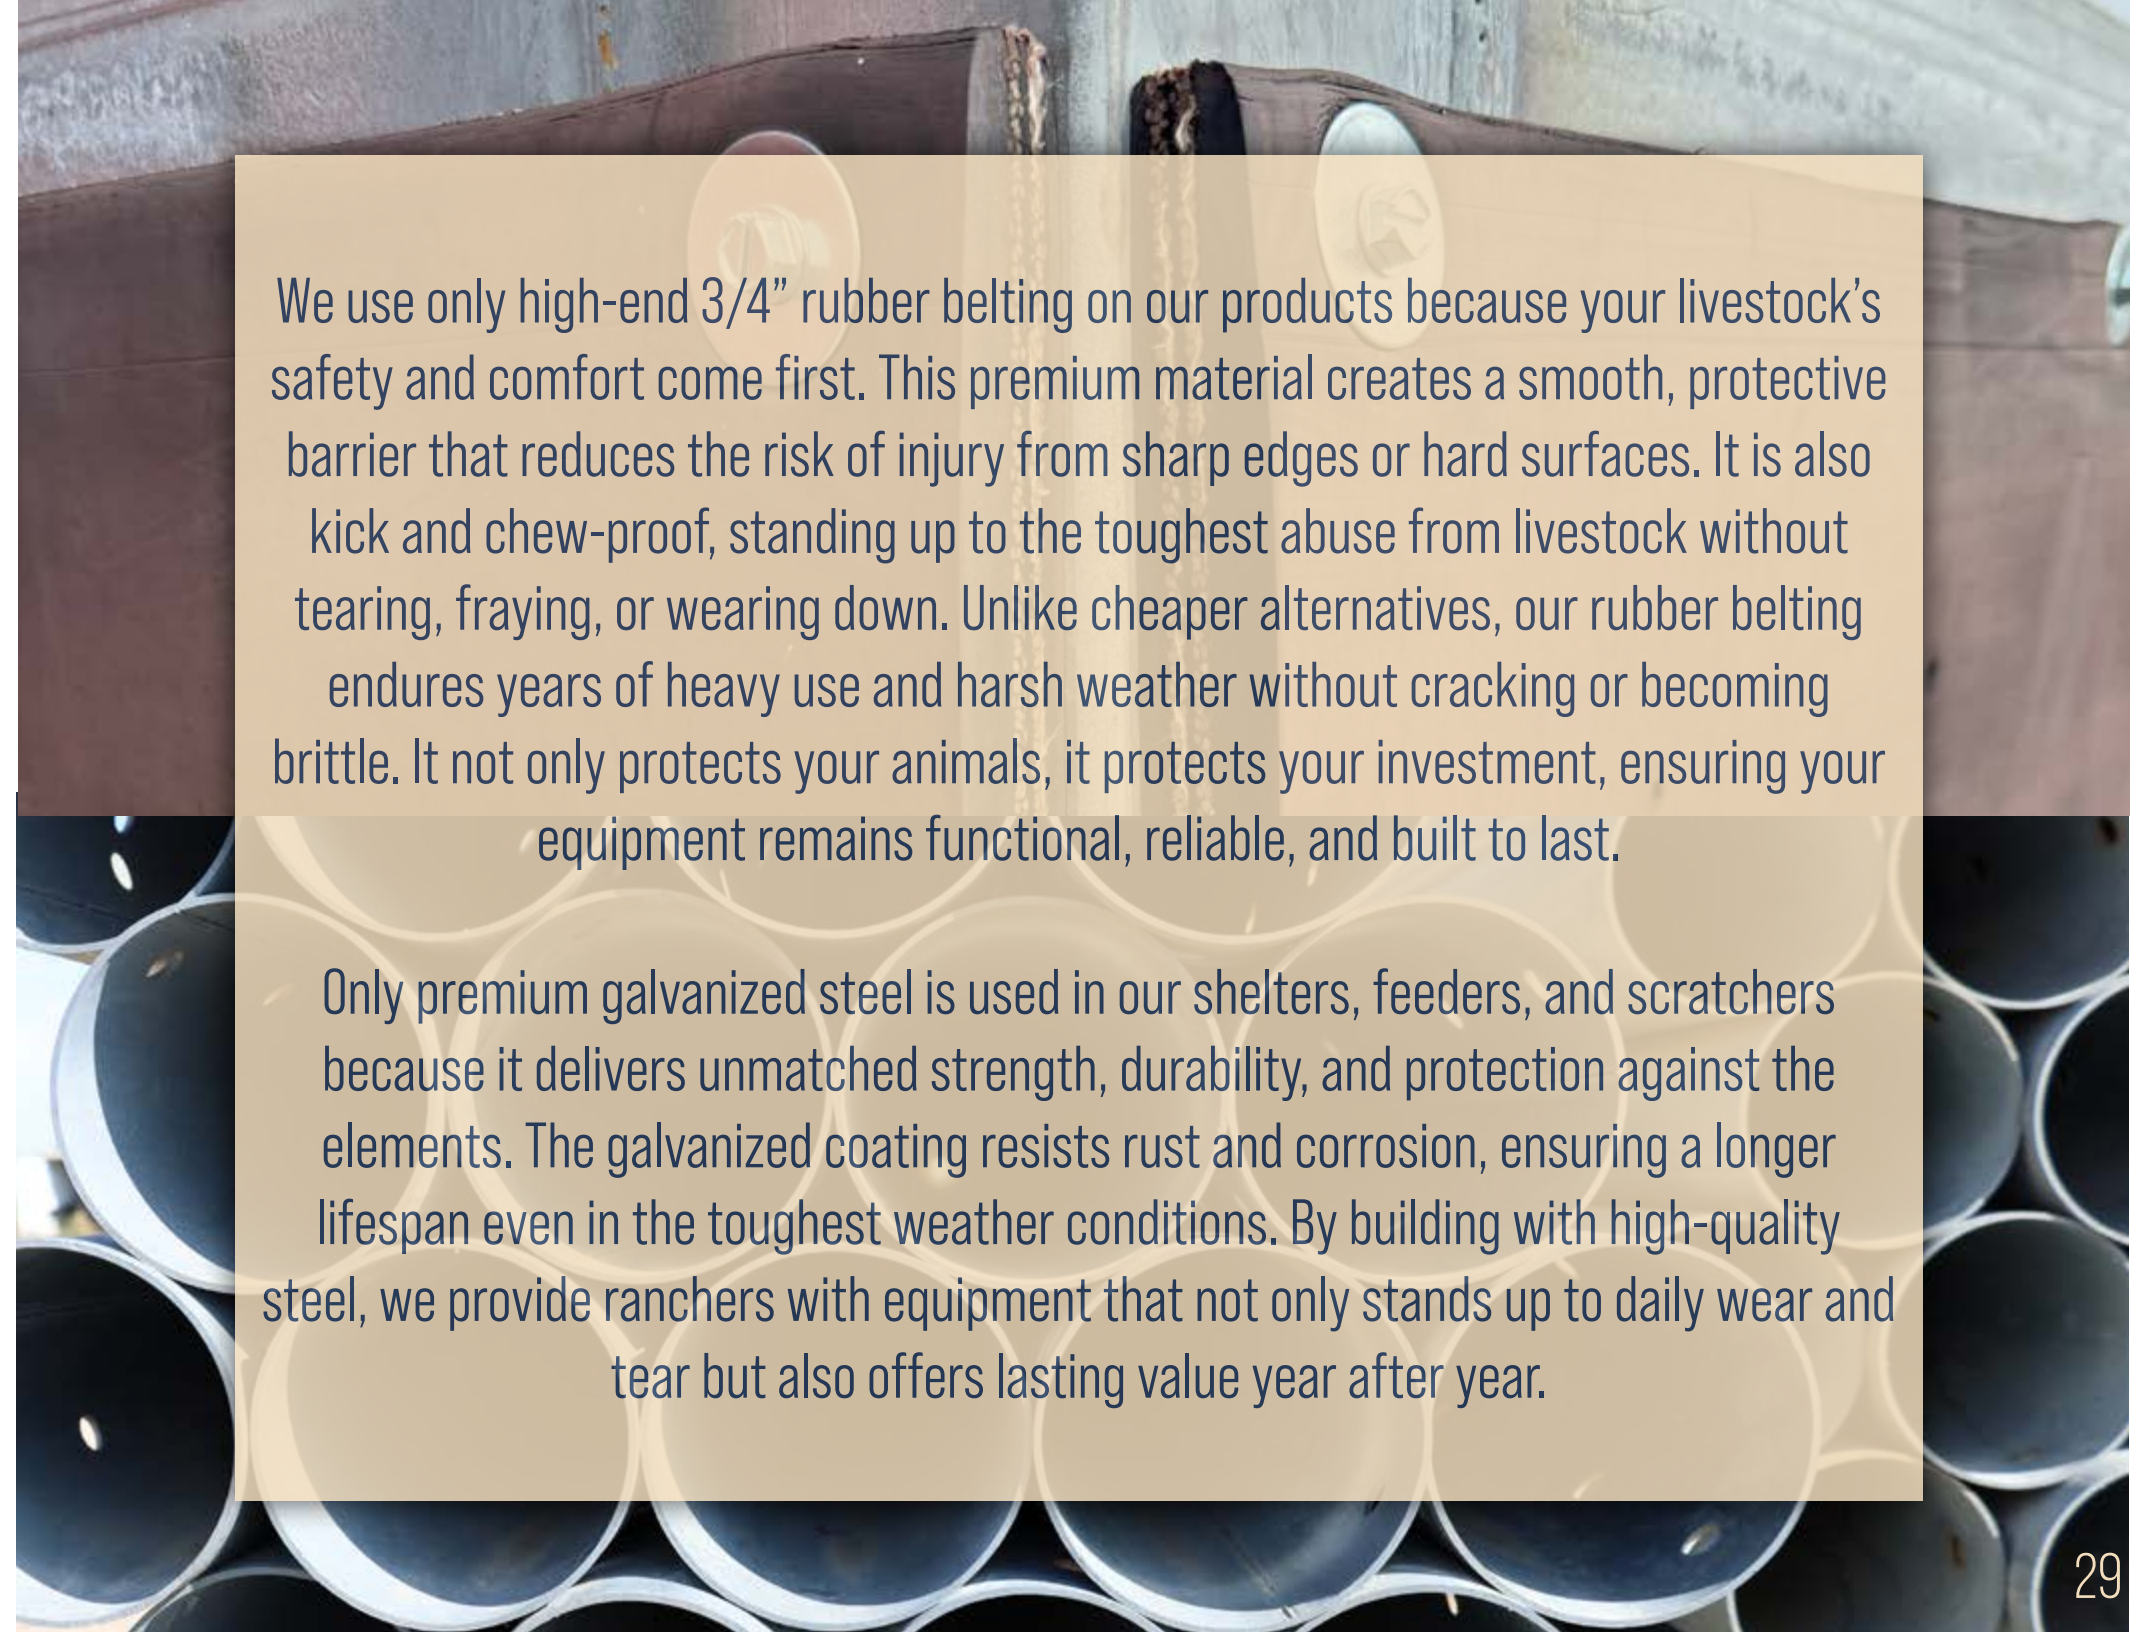

As farmers and ranchers ourselves, we see the ever-evolving need for equipment that will stand the test of harsh ranch life. We are committed to providing long lasting and functional products that will increase your productivity and reduce breakdowns, ultimately saving you time and money.

We use only high-end 3/4" rubber belting on our products because your livestock's safety and comfort come first. This premium material creates a smooth, protective barrier that reduces the risk of injury from sharp edges or hard surfaces. It is also kick and chew-proof, standing up to the toughest abuse from livestock without tearing, fraying, or wearing down. Unlike cheaper alternatives, our rubber belting endures years of heavy use and harsh weather without cracking or becoming brittle. It not only protects your animals, it protects your investment, ensuring your equipment remains functional, reliable, and built to last.

Only premium galvanized steel is used in our shelters, feeders, and scratchers because it delivers unmatched strength, durability, and protection against the elements. The galvanized coating resists rust and corrosion, ensuring a longer lifespan even in the toughest weather conditions. By building with high-quality steel, we provide ranchers with equipment that not only stands up to daily wear and tear but also offers lasting value year after year.

PREMIUM CONTINUOUS FENCE

1.25" CFP

- EACH PANEL FEATURES
- HEAVY-DUTY 1.25" ROUND 14 GA. TUBE
 - SPANNING 20' WITH A HEIGHT OF 48"
 - EVENLY SPACED STAYS FOR A UNIFORM LOOK

50' ROUND PEN

50' ROUND PEN

SKU #RDPEN50

Designed for dependable, everyday horse work, our 50' Round Pen Package delivers strength, safety, and long-term durability. Built with heavy-duty 14-gauge steel panels and treated lumber, this pen is ideal for training, groundwork, and starting young horses. A reliable solution for operations that demand quality materials and solid construction.

BUTTERFLY CLIPS

Panels are connected using two butterfly clips per panel, allowing for easy adjustment during installation and reliable durability in operation.

Package Includes: 12 heavy-duty 5' tall, 12' wide panels and one 12' combo gate featuring a cowboy latch, designed for smooth, convenient entry and exit on horseback or on foot.

COWBOY LATCH

HERD HEALTH

CATTLE SCRATCHER

REDEFINING LIVESTOCK CARE THROUGH INNOVATION

SKU #HDCS877

Our cattle scratcher is crafted from 4" and 5" premium galvanized tubing and equipped with a 1/4" 7x19 strand cable. This cattle scratcher is built tough for everyday use. The heavy-duty frame provides lasting stability, while the durable cable serves as the scratching element—giving your herd a safe, reliable way to groom themselves and relieve stress without damaging equipment.

BACK SCRATCHER ATTACHMENT

SKU #BSA

Showing 1/4" 7x19 strand cable

24" OILER

SKU #C024

60" OILER

SKU #C060

ARE YOU TIRED OF YOUR CATTLE RUINING YOUR FENCES OR CUTTING THEMSELVES JUST TO SCRATCH THEIR ITCH?

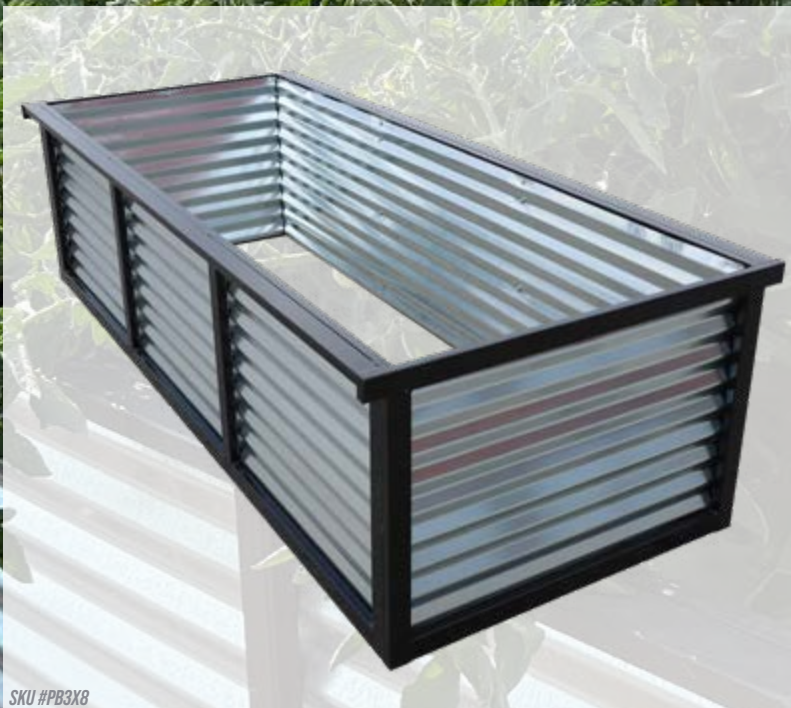

Experience superior insecticide distribution while saving time and labor. We offer two configurations tailored to your operation: the 24" oiler, precision-built for our Heavy-Duty Cattle Scratcher, and the 60" oiler, ideal for high-traffic paths and pasture gates.

LANDSCAPE & GARDEN

PLANTER BOXES

Each planter box is built from sturdy 1"x3" 16-gauge rectangular tubing and finished with corrugated tin for both durability and a clean, polished look. Designed with open bottoms for optimal drainage, these boxes stand 27" tall—an ideal height to reduce strain on your back while tending to your plants. Every planter is powder-coated to provide a long-lasting, high-quality finish that resists wear and keeps your planter looking great, season after season.

3'X8' PLANTER BOX

4'X4' PLANTER BOX

HOT TOPPER

Designed to extend the growing season without the need for a full greenhouse, the Hot Topper fits securely on our 3x8 planter box to retain warmth and protect plants during cooler conditions. An efficient solution for earlier planting and longer harvests.

GREENHOUSES

SKU #ECOGH

Built for dependable, year-round growing, our 8' x 12' greenhouse offers ample space for seedlings, vegetables, flowers, and herbs. Its durable construction and high-quality panels provide excellent light transmission while helping retain heat in colder conditions. Ideal for homesteaders, gardeners, and small operations looking for a long-lasting, low-maintenance growing solution. Pair it with our raised planter boxes, and you have the whole setup.

THE SANCTUARY

FEATURES:

- 96 square feet of garden space
- Twin-walled 6 mil poly sides and roof
